Available with either integrated keyed or touchscreen keypad

10-60 zones

Standard & PLUS versions available

Grade 3 Hybrid Control Panels

30-500 zones

Panels & Keypads

...Exceptional Performance

Motion Detectors

All our detectors have been expertly designed to detect the movement of intruders whilst avoiding unwanted false alarms.

Door & Window Contact Detectors

These monitor the opening of doors, windows, cupboards, drawers etc. Visible or hidden/covert versions are available in 3 different colours.

Internal Sounders & Loudspeakers

Internal Sounder features 5 programmable high level alarm sounds, a long life strobe, multi-coloured LED indication status and low-level notification tones (for example entry/exit, chime, warning etc) Available in both wired and wireless versions.

Ceiling Mount Detectors

Outstanding detection in a sleek and easy to install housing. The Orisec 360 detectors achieve the ultimate balance between detection performance and false alarm immunity.

Shock Detectors

Shock detectors monitor windows and doors for vibrations caused by attempted break-ins and will activate an alarm before an intruder gains entry to your property. Visible or hidden/covert versions are available in 3 different colours.

Fire, Flood & Heat Detectors

Each model in the Fire, Flood & Heat detector range can operate as a stand-alone detector with an integrated sounder. They can also be interlinked so that all detectors will sound in the event of a fire. Furthermore, the detectors can be integrated with all Orisec wireless devices so that activations can be reported via the control panel to a monitoring station or to our mobile phone apps.

Internal Detectors

Cover every angle

W-ROX-1

The W-ROX-1 Wireless Relay Output Expander features a 1A/24V relay to operate equipment remotely from any Orisec control panel. Examples include CCTV, garage doors, sprinklers, outdoor lighting, outdoor sirens and electric gates.

W-DB Wireless Doorbell / Push Button

- White, Anthracite, Black, Red or Green
- Push notification to your app
- 4 Tone Chime Options

Usage Examples
- Chime / Doorbell
- Push to Exit
- System Arm
- Elderly Care / Help Call
- Remote Control e.g. Gates, Doors etc

W-VP Wireless Vehicle Protector

The W-VP has been designed to protect your vehicle by activating your home alarm and/or app notification when motion is detected in your vehicle. It acts as a visual deterrent whilst also giving you an early warning if anyone is trying to access your vehicle. Available in Black, Red & Yellow

ControlPlus App

The ControlPlus app gives users complete visibility of their system from anywhere.

Alarm Notifications
Break-in, fire, flood etc

Family Care
Reassurance that young or elderly relatives are safe & well

Set & Unset
your system remotely

Remotely Control
Garage doors, gates, CCTV, lights etc

Apps

Advanced and easy to use.

External Sounder

This acts as a highly visible deterrent to inform potential intruders that your property is protected. It emits a 115-decibel alarm siren if your alarm system is triggered.

Decoy Backplate & Dual LED Flasher Module

The Decoy sounder mimics the live external sounder, without the additional cost and wiring, to act as an extra deterrent in remote parts of a property. The Dual LED Flasher Module comes with ultra-high visibility LEDs, programmable flashing options, plus an extended battery life of up to six years.

Illuminated Sounder

For an even greater security deterrent, illuminated versions are available to increase visibility during darkness.

External Detectors

Designed for CCTV, Lighting and Intruder Alarm applications. With over 20 variants to choose from, including wired and wireless, there is an external detector for every installation.

External Detection

First line of defence
