It’s time to upgrade your alarm system

We have partnered with the leading manufacturer of intruder alarm equipment to bring you the latest technology available.

External Bell

This acts as a highly visible deterrent to inform potential intruders that your property is protected. It emits a 115-decibel alarm siren if your alarm system is triggered. For an even greater security deterrent, illuminated versions are available to increase visibility during darkness.

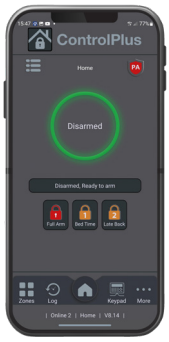

Keypads

Enter your personal access code onto any one of an extensive range of keypads. A choice of finishes to suit any interior.

App

The iOS & Android Apps give you complete visibility of your system, allowing total operational control, system event notifications and monitoring from anywhere, at any time.

Detectors

All our detectors have been expertly designed to detect the movement of intruders whilst avoiding unwanted false alarms. Detectors include motion, door, window and shock. All available in different colours and sizes to match your homes interior.

Control Panel

The command centre of your system, with versions to secure every size of property.

Contact us today for a no obligation competitive quote to upgrade your current system to the latest intruder alarm technology available.
