ControlPlus 2 App

Control and monitor your security system from anywhere.

The ControlPlus 2 App gives users complete visibility of your system, including camera streaming, allowing total operational control, system event notifications and monitoring from anywhere, at any time.

Real-time Monitoring

View the current status of your alarm system, including whether it's armed, disarmed, or in a part-arm mode.

Event Log

Immediate access to a digital record of all activity on your system – including the date and time of system events, such as arming, disarming, alarms, and other notifications.

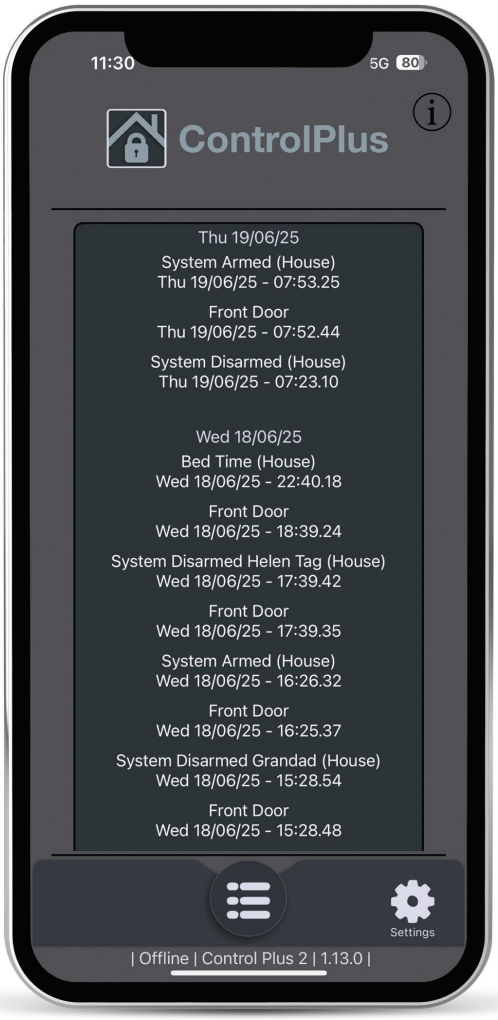

24/7 Access

Complete visibility of your system at any time, from anywhere in the world.

Offline Notification Log

Allows you to view past notifications, including those dismissed or deleted, even without an internet connection.

Virtual Keypad

Essentially, it transforms your smartphone into a remote control for your security system, offering convenience and enhanced control over your home or business security.

Remote Control Outputs

Remotely control wired outputs on your security system, allowing you to operate devices like lights, gates, or garage doors. These outputs can be configured for on/off or timed actions, giving you control from your smartphone.

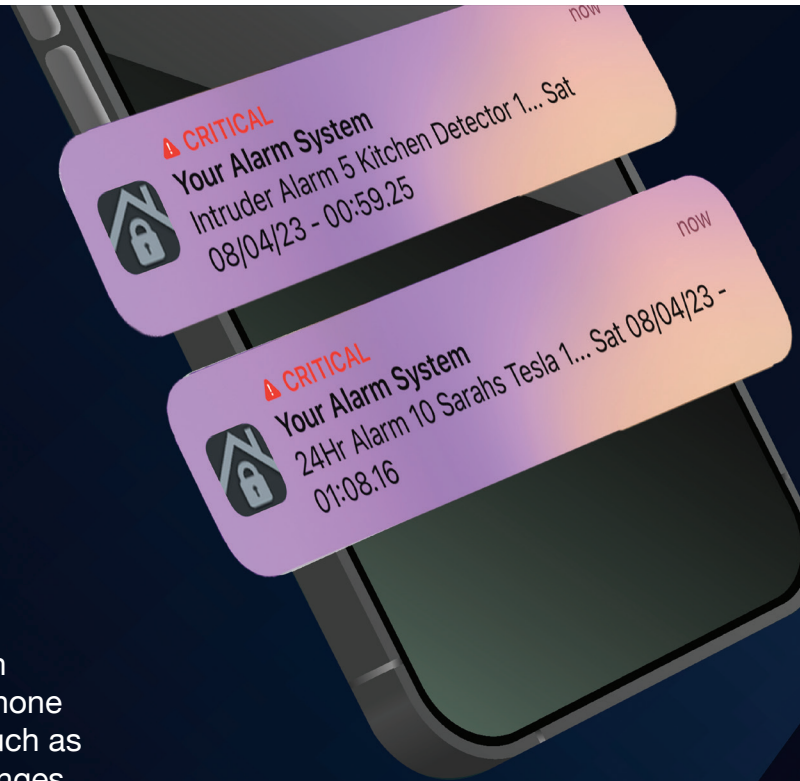

Zone Status

You can view which zones (e.g., specific doors or windows) have been triggered or are experiencing activity.

Critical Alerts

Receive immediate push notifications to your smartphone when certain events occur, such as alarm triggers or system changes.

Integrated User Guide

An integrated manual gives easy and direct access to the detailed instructions and troubleshooting.

Family Care

Use ControlPlus2 to check on your loved ones without invading their privacy - Set up notifications to alert you if there has been no activity within a programmable timeframe.

Activity Trace

Visual view of which zones are triggered.

Custom Notification Options

Customise the types of notifications you receive and how they are delivered (e.g., push notifications, text messages, emails)

Custom Colours

Customise the appearance of the app to suit your style with a range of colour graphics.

W-VP Vehicle Control

Remotely set and unset the W-VP Vehicle Protector to facilitate fast and easy access to your vehicle.

Fog Integration

ControlPlus2 incorporates a range of Density Fog units – allowing fogging management and activity notifications to be received.
